

## COPPER QUEEN DECORATIONS ATTRACTIVE

Popular Store Surpasses All Previous Efforts In Preparing For Their Great Spring Opening.

The Copper Queen store is preparing for their spring opening, which will occur Monday, Tuesday and Wednesday, and have decorated their establishment in a most attractive manner. The show windows have been trimmed in a style which would do credit to any establishment of New York or Chicago, the effects being of a most pleasing nature.

The windows are decorated with white and purple wisteria, artistically clinging to trellises, white being used in the ladies' windows and purple in the windows containing gentlemen's wear. The ladies' windows contain the latest in lingerie gowns of princess effects which are the approved styles set by the fashion critics. Millinery displayed in these windows represents the highest achievement of that art, and the ladies of Bisbee will have something to feast their eyes on.

The windows used for the display of gentlemen's apparel are also decorated with the same artistic taste and elegance as those devoted to the apparel of the weaker sex and contain clothing, furnishing goods and tailoring fabrics of the latest designs and fabrics.

All the windows are decorated in the same manner, a white background, showing off their contents with the best of effects. The curtains have been down most of the week, and yesterday they were raised for the first time since the trimmer has been working on them. That they show the good taste and highly artistic efforts of a decorator of no small worth, it seems that he ought to be introduced to the people of Bisbee. D. L. Conley, the decorator, also "ad" man for the store, comes from the leading stores of the east and north. He came to Bisbee ten months ago to enter the employ of the Copper Queen and since his taking charge of this work has created much interest in the display windows of the store. His last employment before coming to Bisbee was at Champlain, Ill., where he was employed by a concern dealing exclusively in ladies' apparel.

Upon entering the store the visitor will be met with wisteria trimmings on the pillars running the length of the building. Apple blossoms will also be seen in artistic array commingling with the wisterias, and the electric arc lamps will be draped with amplex, making a very pleasing attraction.

Visitors will also notice that this is the first occasion that this popular store has ever decorated its windows and interior so lavishly and will be tempted to linger in the place as long as their time allows. The management of the establishment can be complimented in securing such competent people in furthering the popularity of their enterprise.

### BOARD OF TRADE MEETING

President Buxton, of the Board of Trade, wishes to call attention to the meeting of the board which will be held at 2 o'clock Monday afternoon in the city council chamber. Yesterday a number handed in their

## ACCOUNT Y. M. C. A. MEETING AT EL PASO

Secretary Buchner of Lowell Y. M. C. A. Gives Graphic Account of Proceedings.

The Young Men's Christian Association have just closed an important convention in El Paso. Delegates were present from New Mexico, Arizona, Northern Sonora, Chihuahua and Texas west of the Pecos river.

The most important action of the convention was the organization of the territorial committee of the Young Men's Christian Association comprising the territories named above. The committee numbers twenty-one and is to have direct supervision of the work now in operation in the various cities of the territories and of the extension of the association to unorganized points. Mr. J. G. McNary, of El Paso, was elected chairman of the committee, Prof. McArthur, of Mesquite Post, New Mex., vice chairman, H. D. Slater, of the El Paso Herald, treasurer, and Mr. James A. Dick, of El Paso, secretary.

A working quorum of the committee are located in and about El Paso to facilitate handling the business of the committee. The representatives of the local association on the territorial committee are I. W. Wallace and L. R. Allen. Mr. A. C. Lockwood is the representative from Douglas.

Mr. D. W. Pollard was elected as the secretary of the committee to give his entire time to the development of the work in the region covered by the committee.

The association is making great strides in the southwest and just soon as financial conditions permit work will be opened in a number of mining camps and railroad centers in the territories.

The new territorial committee is to be directly related to the international committee of the Y. M. C. A. representatives of the territorial committee sitting in international conventions and representatives from the territorial conventions. This is the first section of the country to be thus closely related in the international work and the experiment is being watched with interest by the other states of the union.

The first of a series of regular receptions to the men employed at the various mining shafts will be given on Monday evening at the Y. M. C. A. to men employed at the Czar and Holbrook shafts. An interesting program has been arranged and a pleasant evening is assured. The program will begin in at 7:30 in the social rooms of the Y. M. C. A. building with a bowling match between the Czar and Holbrook bowling teams. The following are the men who will represent the respective sides: Holbrook—Gerphel, McDonnell, McNair, Hurst, Davenport, Czar—Harrington, Cowan, Fisher, McClellan, Dodds.

A basket ball game has also been arranged between the Copper Queen store team and the employed force of the Y. M. C. A. An attractive feature of the program will be two three round exhibition boxing bouts between members of the boxing class of the Y. M. C. A. Good music is also being arranged for and refreshments will be served to the visiting men in the association lobby during the evening. While the reception is arranged particularly for the men of the shafts above named, all men are welcome. Entertainments are being arranged for the men of the other shafts of the camp at a later date.

Applications to the secretary and others have indicated their intention to do the same. The applications of these new members will be acted upon at this meeting.

## STRIKING IS WINDOW AT THE "FAIR"

Display For Spring Opening Discloses High Rank of Bisbee Window Decorator—Work of James Silverthorn.

Modern window dressing has become an art. There are many who can easily remember the time when window displays were not thought of except by the few, and those were of a very indifferent character and were not changed for weeks at a time. Not so with the modern merchant, and especially with the decorator in dry goods. He is who leads the van of all others in this particular method of advertising his wares.

The window of the progressive dry goods merchant is looked after by a man specially trained to the work. One who has combined a natural good taste and eye for beauty with a thorough education of them in the line to which he has devoted himself. As Bisbee is not lacking in up-to-date dry goods merchants she has men in this particular line that are not to be excelled in any town of similar size.

That this is true is amply demonstrated by the display at the Fair dry goods store, which has attracted so much attention. The last day or two. This display is the result of the efforts of James Silverthorn, advertising man for this popular store, who has made a special effort on account of the spring opening.

The two windows in the new building, which are devoted to a display of gents' furnishing goods, have for their background a plaiting of white tatarian over purple silkoline, festooned with purple and lavender bows. The large mirror frames in the windows are covered with apple branches, foliage and blossoms, which represent many hours' work upon the part of Mr. Silverthorn, who wrought each leaf and petal.

But it is the windows in the main building that will appeal to the ladies. These, too, are decorated with apple boughs in bloom, but in addition have a beautiful French fleur-de-lis, over which the branches are hung. Beneath the fleur-de-lis fall two magnificent curtains of silk velour. Artificial flowers that rival the real article fall in graceful festoons about the window. Taken as a whole the display is one that only a man of natural taste in such matters, coupled with much pride in his work, could have successfully executed, and it is well worth the time of any one to stop and see what these windows have to show.

Mr. Silverthorn, who is the creator of the display referred to, came to this city highly recommended, and has more than made good his recommendations. Notwithstanding that the windows in question required several days hard work in their preparation, the curtains were never lowered, which is a thing that will be appreciated by any merchant.

## WELL KNOWN PEOPLE MARRIED IN PHOENIX

Hon. Neil Bailey, speaker of the lower house of the Twenty-fourth legislature, spent several days in the city yesterday attending to business interests, and returned to his home in Naco last evening.

Bailey returned to the southern portion of the territory on Friday evening from Phoenix, where he had gone previously to attend the wedding of his sister, Miss Zelma Bailey, to Hon. F. F. Cleveland. The ceremony was performed at the home of the bride's parents, Dr. and Mrs. G. H. Bailey, in the capital city, and immediately afterwards the newly wedded couple left for Denver and other points in Colorado, where they will spend their honeymoon.

Miss Bailey was well known in this portion of the territory, although her home has been in Phoenix. She was a member of the younger set of the capital city, and was extremely popular because of her attractive personality.

The groom is well known throughout the territory, having served with distinction in the upper house of the last legislative assembly. A short time ago he was appointed private secretary to Governor Kibbey, and will take up the duties of his office on April 1.

When asked concerning conditions in the central portion of the territory Bailey stated that there was evident in all sections a rapid recovery from the effects of the financial stringency. He said there was a real deal of building being done both in Tucson and Phoenix.

## DOUGLAS DEFEATED BY BISBEE TEAM

In the fastest game of basket ball that has been played at the local association in a long time, the Bisbee Y. M. C. A. team defeated the Douglas Y. M. C. A. team last night by a score of 45 to 27. Both teams were in the best of condition and from the start the game proved more than interesting. Babe Woods of the local team played a star game and won much applause from the gallery, which was well crowded with spectators.

The line up of the teams was as follows: Douglas—Tom Rice, captain and center, Ted Rice, Will Fox and C. Philbrick, forwards; George Fisher, and E. Walsh, guards.

Bisbee—Heine Holden, captain and S. J. Varney, forwards, Curtis Woods, center, Walter O'Malley, Dan Angius, Will O'Malley and Oliver Brown, guards. C. E. Buchner, umpire, J. B. Huntington, referee.

Review Wgnr Ads. bring results.

## CYANIDE OF POTASSIUM WAS CAUSE OF DEATH

Trouble With Husband Said To Have Caused Act of Mrs. Hillock.

"That the deceased came to her death by means of poison administered by her own hand with suicidal intent" was the verdict of the jury which yesterday held the inquest over the remains of Mrs. Hillock, an account of whose death was in yesterday's Review.

Dr. Caven, who was first examined at the inquest, stated that in an examination of the stomach there was found no trace of any poison, this being probably due to the stomach pump which was used. He found the lining of the stomach to be red, as though some irritant, presumably a poison, had been in it. He also stated that from the symptoms which the deceased had shown he had no doubt that her death was the result of a dose of cyanide of potassium.

Dr. Wilkinson, who was next called, testified that when he arrived the deceased was sitting on the side of the bed with a negro woman holding her. That there was a slight frothing at the mouth. The deceased told him that she knew what she had taken and that she was going to die. He then applied a stomach pump, but it was too late to do any good.

Mrs. Ida Chambers, a sister of the deceased and the woman to whom the note was addressed, testified that her sister had been threatening to commit suicide ever since her return from the east about two weeks ago. That she had had trouble with her husband, from whom she had been divorced. That Mrs. Hillock had told her that she had purchased strychnine and later that she had a bottle of cyanide of potassium. On the day of her sister's death they had done the work together and had eaten lunch, she said. That the next time she had seen her sister was in convulsions. The witness broke down during the testimony and proceeded with difficulty.

Mrs. Chambers testified that her sister was thirty-three years of age and that she was born in Detroit, Mich. She testified that her sister had made no statement to her after taking the poison.

Mrs. L. Henry, who was put on the stand testified that the deceased had often threatened to take her life during the past six weeks and that she had been very melancholy at times. The funeral services of the deceased will be held tomorrow afternoon at 2:30 o'clock from a local undertaking parlor.

## BISBEE MINING MEN TO HOLD MEETING

Arrangements have been made for a meeting of a number of the mining men of the Warren district to be held at the council chambers of the city hall on Monday evening. This meeting has been decided upon for the purpose of allowing Mr. H. L. Thompson, of Denver, who is in the city representing the American Mining Congress to explain fully the objects of the congress and the purpose of his visit to this section of the mineral country.

Mr. Thompson came to Arizona for the purpose of organizing a branch of the American Mining Congress, under the provisions of the constitution and by-laws of the parent organization, which provide that with fifty members a state association or branch of the American Mining Congress may be organized. It is Mr. Thompson's idea to organize the mining men of Arizona and Sonora, Mexico, into one branch association, though he is encouraged to believe that he will interest in the proposition more than fifty members in Douglas and Bisbee alone. However, he believes that those who are mining in Sonora are so closely identified with Arizona, that it would be better to have them admitted, thus making the branch organization stronger and more effective in looking after the welfare of the mining industry in this section of the west.

At Douglas Mr. Thompson remained for two weeks and secured thirty-five members for the American Mining Congress. Here in Bisbee he has met with much encouragement and he expects to secure as large a membership here as in the Smelter City. As soon as the required fifty members have been secured all will be called together for the purpose of electing officers of the branch association and deciding upon permanent headquarters. Already Mr. Thompson has secured nine members in Bisbee and after the meeting on Monday night he will at once close up his work here.

From Bisbee Mr. Thompson will visit other towns in the territory.

## NO LICENSE TO SELL LIQUORS

Yesterday afternoon two women residing in the "Redlight" district were arrested upon complaint filed by Sheriff Jack White, charging them with disposing of malt liquors in quantities of less than one gallon without a license. They were brought before Justice Hogan who heard their pleas of not guilty to the complaint, and they were given their liberty on bonds of \$150 each, which were furnished by friends of the women. The women were named St. Clair and Elsie Mahon, and they will be tried before the justice next week. The former will have her trial on Tuesday morning at 9 o'clock, and the latter on Wednesday morning at the same hour.

This is the first prosecution which will be brought against the denizens of the district on this charge for some time, the first case to be tried was that against a colored woman some months ago. The sheriff has been cognizant of the illegal disposal of intoxicants for some time, but this is the first opportunity he has had in establishing a case against the disposers of liquors.

In speaking of the matter last evening Postmaster Cassidy said: "This is a very serious case, as at any time mail containing valuable papers might be destroyed or thrown away by children. Conviction of the offense might not only entail a sentence to the reform school for the child, but a heavy fine for the parents as well. So I would advise all parents to see that their children do not tamper with the mails."

VISITOR FROM DOUGLAS. C. M. Seaman, of the hardware firm of Seaman & Perry, of Douglas, was in Bisbee yesterday accompanied by his father, who is on a visit to this section from Grand Rapids, Michigan. Mr. Seaman brought his father to this city for the purpose of showing him the best mining camp in Arizona. During the day they visited the mining shafts in the district and took a ride through the district on the electric car.

Mr. Seaman left the employment of the Copper Queen store here five years ago to go to Douglas, which was then the newest town on the Arizona map.

## CELEBRATION ARRANGED ON LARGE SCALE

Sons of St. Patrick Will Outdoor All Former Efforts in Commemorating Life of Their Great Patron.

On Tuesday evening in accordance with the usual custom the local branch of the Irish Nationalists will give a grand ball and reception in the new skating rink in Tombstone Canyon, celebrating the feast day of the great St. Patrick.

Several weeks ago a committee on arrangements was appointed to take charge of the various details of the celebration which will be on an extensive scale, and it is assured that everything will be in readiness. The immense hall will be decorated with the national flag of Ireland, entwined with the Stars and Stripes, and colored electric lights will also be used in the decorating scheme. The music will be furnished by a well known local orchestra.

The committee on arrangements is composed of the following gentlemen: John T. Keating, M. Connelly, Wm. Fabey, Michael Haunon and James Letson. Following are the members of the floor committee: Thomas Jennings, T. Feeney, Robert Heanes, J. Dennis, Dennis Roache and Daniel Walsh.

When seen last evening by a Review man and asked concerning matters connected with the celebration, Michael Connelly, chairman of the arrangements committee, said:

"I do not think there is a doubt but that we will surpass all previous records in the celebration of St. Patrick's Day. While there have been numerous details for the committee to attend to the work has been made easier by the widespread enthusiasm displayed on all sides. The subcommittee in charge of the sale of tickets has already reported an unusually large number disposed of."

"There are still remaining a few matters which need attention, but they will have been taken care of before Tuesday evening."

## RIFLING OF MAILS WILL BE PUNISHED

The rifling of the mail box of the E. B. Mason Company in the post office in Lowell on Friday has prompted the local authorities to take strenuous measures not only to prevent a recurrence of the offense, but to punish the person guilty of the recent violation of the law. The fact that the mail box was opened and its contents taken out by someone who had no authority to do so, in the eyes of the law, constitutes a robbery of the United States mails, which is a very serious crime.

In her report of the incident to Postmaster Cassidy, Miss B. L. Douglas, in charge of the Lowell substation stated that it had been impossible to discover the culprit, although the same thing had occurred once or twice before. Because of the fact that people did not lock their mail boxes, in the Lowell offices instead of keys, combination locks are used, and many people do not take the trouble to throw off the combination after closing the box.

Yesterday afternoon Postmaster Cassidy placed the matter in the hands of Deputy United States Marshal Foster, and if it is possible to discover the culprit prosecution will follow.

The fact that the guilty one is a child will make no difference in the eyes of the law, further than a sentence to the reform school at Golden, Colorado, instead of to the penitentiary.

In speaking of the matter last evening Postmaster Cassidy said: "This is a very serious case, as at any time mail containing valuable papers might be destroyed or thrown away by children. Conviction of the offense might not only entail a sentence to the reform school for the child, but a heavy fine for the parents as well. So I would advise all parents to see that their children do not tamper with the mails."

VISITOR FROM DOUGLAS. C. M. Seaman, of the hardware firm of Seaman & Perry, of Douglas, was in Bisbee yesterday accompanied by his father, who is on a visit to this section from Grand Rapids, Michigan.
